Secure and manage PCs better*

Upgrade to HP systems featuring 7th generation Intel® Core™ vPro™ processors and reap the benefits of new features

Reduce the chances of a data breach with Intel® Authenticate technology and HP Client Security

Bluetooth® authentication: Users secure their PCs using their smart phones

Protected PIN: Scrambled keypad numbers prevent PIN theft

Fingerprint scan

Restricted access to removable media

Lower IT management costs with Intel® Active Management Technology

Wireless provisioning: Set up and manage systems over Wi-Fi

USB-R storage redirection: Install disk images remotely

Intel Manageability Commander: Control systems from a single console

Added bonus: Give users a more convenient experience

Ability to log in using their fingerprint

Freedom from having to solve PC problems on their own

New features thanks to upgrading from Windows® 7 to Windows 10 Pro
