

# Features healthcare professionals need.

The HP ElitePad 1000 G2 powered by Intel® offered features for everyday healthcare tasks that the Apple® iPad Air™ could not provide.

Create tasks with speech-to-text\*

Pin tasks to start screen for easy-access notifications\*

Print documents\*

Organize workflow with multiple dashboards†

View multiple apps simultaneously

Windows® semantic zoom

Save Office documents as PDF files

Search for patients from anywhere†

microSD™ slot for removable storage

Encrypt Office documents with a password

✓ The ElitePad 1000 G2 provided all of these features.

✗ The iPad Air provided none of these features.
