

Keep your students on task with a faster Chromebook™

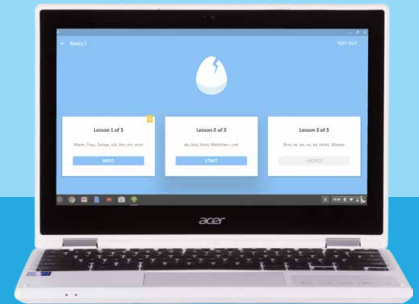

The Intel®-powered Chromebook* R 11 handled Google Play™ education apps faster¹

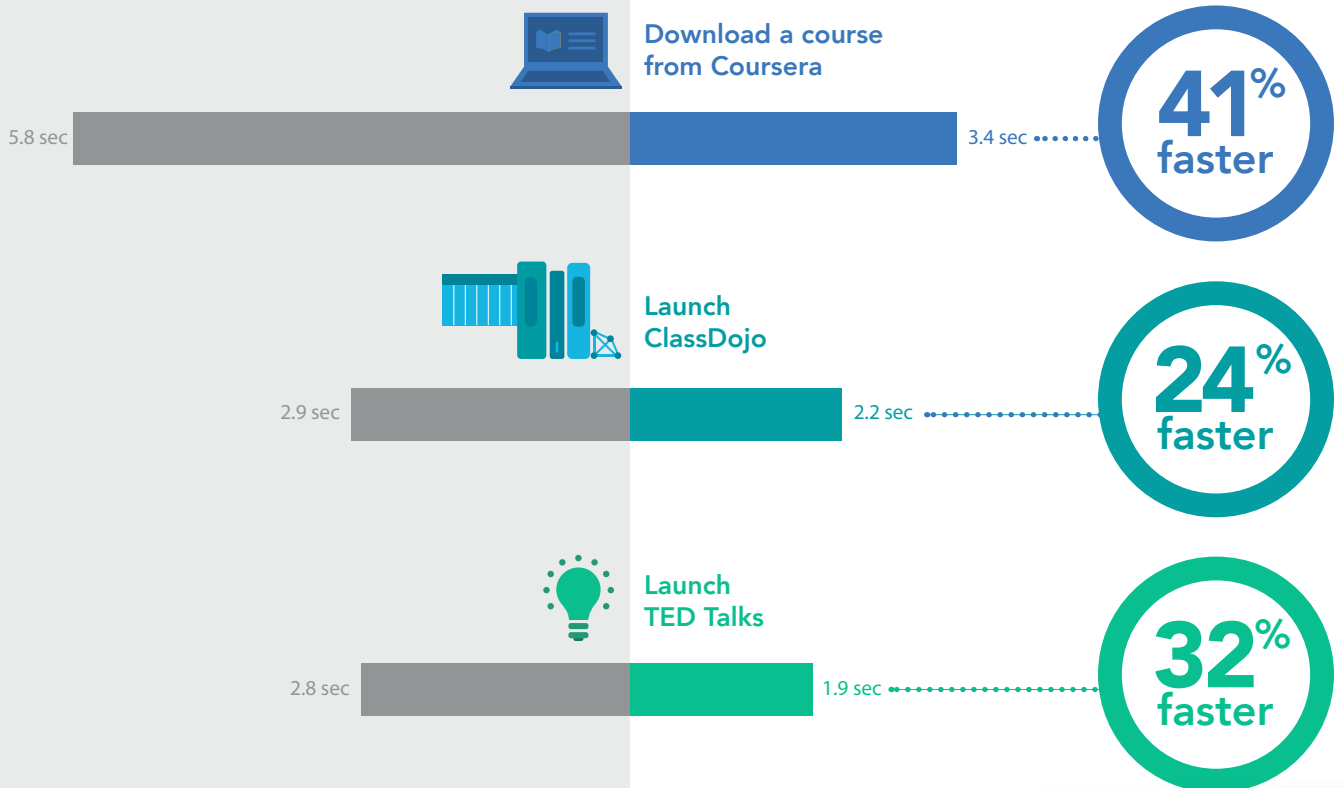

Giving students a more responsive app experience lets them spend less time waiting and more time learning, with fewer possibilities for distraction.

ASUS® Chromebook Flip with Rockchip processor

Acer® Chromebook R 11 with Intel processor

The Acer Chromebook R 11 offers Google Play support and a multi-touch display, letting students use Android education apps with full touch functionality. Students can use the device like a laptop, a tablet, or set up as a tent thanks to its 360° hinge.
