Running HDXPRT 2014 v1.2 on Windows 10 Creators Update

Testers running HDXPRT 2014 on Windows 10 Version 1703 (Build 15063.138) may encounter a popup error during the test stating that the power_settings.exe application has crashed. To avoid this error:

1) Before testing, navigate to Program Files (x86)\HDXPRT\Bin in File Explorer.
2) Delete power_settings.exe.
3) Restart the system.
4) Continue with the normal pretest system configuration steps listed in the HDXPRT 2014 User Manual.
